

RECRUITMENT VACANCY

Back End Developer

Bulletproof, an innovative and expanding Cyber Security specialist, is recruiting for a Back End Developer to help oversee and support the improvement, functionality and range of our existing database architecture and set-up. Working as part of a specialist software team, the Back End Developer will need experience building with RESTful APIs as well experience structuring and delivering the integration of multiple data sources and data relationships into a single system. As Bulletproof continues on our journey of growth, the Back End Developer will play a critical role in ensuring a robust database set-up is in place to enable delivery of services and user experience. Due to the nature of the role, we are looking for someone who has experience of:

- Building with RESTful APIs;
- User authentication and authorisation between multiple systems and environments;
- Integration of multiple data sources and data relationships into one system;
- Management of hosting environment such as database administration and application scaling;
- Database administration, including backups;
- Session management in a distributed environment.

Please note, this role can be based anywhere in India, and salaries available are commensurate to experience. The successful candidate will also need to have:

- Excellent communication skills, both written and verbal, with the ability to explain technical ideas and processes to all levels;
- Excellent troubleshooting and problem-solving skills;
- Self-motivated with a desire to expand knowledge and take on varying technical challenges;
- Ability to work within a time-critical environment;
- Flexible, committed and a collaborative approach to working;
- Adaptable to rapid changes in workload or task priorities.

Knowledge of the following would be beneficial but not essential:

- Understanding of cyber security concepts (penetration testing, vulnerability scanning etc.);
- Ruby (on Rails) experience;
- Experience with creating microservices;

COMPANY OVERVIEW

ABOUT BULLETPROOF

YOUR BEST DEFENCE AGAINST CYBER THREATS

Bulletproof are one of the fastest-growing cyber security companies in the UK, with a passion for developing innovative solutions to combat modern, dynamic cyber threats. Bulletproof is a vibrant organisation with a proven track record of creating new and exciting security products, and is driven by the desire and talent of our staff.

Good security is in our corporate DNA, and we believe that our information and cyber security services are the best way to stay ahead of the hackers, take control of your infrastructure and protect your business-critical data. Key to our success is our in-house UK Security Operations Centre (SOC) – a state-of-the-art 24/7 command station for all of our cyber security and compliance operations.

Bulletproof is the dedicated cybersecurity arm of the ServerChoice Group, an organisation with over 10 years' experience in providing secure online services. The Group owns and operates multiple data centres, extensive dark fibre networks, runs scalable secure cloud environments and provides intelligent DevOps services. Your attention will be focussed solely on the Bulletproof brand.
