

RECRUITMENT VACANCY
Cyber Essentials Plus Assessor

Bulletproof, a rapidly growing cyber security company, is looking for a talented Cyber Essentials Plus Assessor to join our team. As a Cyber Essentials Plus Assessor, you will be responsible for our client's entire assessment journey from gaining network access, completing remote vulnerability scans and workstation assessments, all the way through to conducting audits and presenting final reports. Additionally, you will also be heavily involved in supporting the sales team as we look to scope and truly understand clients' requirements to ensure we are best placed to support their journey towards Cyber Essential Plus certification.

To be successful in this role, we are looking for a highly organised individual, with a broad knowledge of Cyber Security, who is comfortable in a client facing role. An overview of the main duties has been provided below:

- Oversee and manage the client journey, including conducting assessments and audits in line with the IASME criteria, as we support them on their way to Cyber Essentials Plus certification;
- Schedule and deliver assessments and audits;
- Write and deliver detailed reports, providing advice and guidance to clients at each stage;
- Act as the first point of contact to all related client enquiries;
- Complete all related database and administrative Cyber Essentials tasks (including trackers).

Bulletproof have already conducted over 100 assessments to date this year, and this newly developed, varied role will also be a fantastic opportunity for those looking to develop their skills and join the Penetration Team in the future.

Key Requirements:

- One or more of the following:
 - CREST Registered Penetration Tester;
 - CREST Certified Infrastructure Tester;
 - Cyber Scheme Team Member (CSTM);
 - Cyber Scheme Team Leader (CSTL);
 - EC-Council Certified Security Analyst (ECSA);
 - Offensive Security Certified Professional (OSCP);
 - TigerScheme Team Member (CTM/QSTM);
 - TigerScheme Team Leader (CTL/SST).
- Understanding of industry standard vulnerability scanning tools such as Nessus;
- Willingness to travel to client site as required to conduct in-person assessments;
- Understanding of the basic security settings across all common device builds;
- Ability and attention to detail to complete assessments and audits in-line with IASME criteria;
- Excellent written and communication skills;
- Excellent time management skills.
