

RECRUITMENT VACANCY
Penetration Tester

Bulletproof, an innovative and expanding Cyber Security specialist, is looking to recruit experienced Penetration Testers, based in either the UK or India, to join our growing team. Focusing predominantly on testing web apps, we are looking for experienced Penetration Testers who are eager to provide a best-in-class service to our clients throughout the world. As a pivotal part of Bulletproof's service offerings, we are looking for Penetration Testers who have strong offensive technical skillsets, who can discover and exploit vulnerabilities and misconfigurations in a range of different environments, alongside having the ability to communicate issues clearly and concisely for customers; breaking down complicated technical issues is a crucial skill in order to provide value to clients.

We believe this is fantastic opportunity to be part of Bulletproof at a hugely exciting time. As a company, we are able deliver many types of testing, from 'vanilla' web application and infrastructure testing through to hardware assessments and red team engagements, and, as a Penetration Tester, you will be key in helping to deliver our services whilst providing an excellent Bulletproof experience. An overview of the main duties has been provided below:

- Perform formal and comprehensive application and infrastructure penetration testing assessments;
- Provide well-written, concise, technical and non-technical reports in English;
- Perform vulnerability assessments and provide findings with remediation actions;
- Support with various client pre-engagement interactions, including scoping activities and proposal drafting;
- Manage and deliver penetration testing project activities within strict deadlines;
- Research application and infrastructure components within the wider team to identify new
- and follow responsible disclosure;
- Assist in scoping calls and discussions with customers to ensure that client needs are met.

Please note, the ability to flexible with hours of work is required as this role will support some European and US based clients.

Skillset, Experience and Qualifications:

- Proven industry experience in application and infrastructure penetration testing;
- Strong understanding of OWASP, PTES and other penetration testing methodologies;
- Strong knowledge in testing mobile applications (iOS/Android);
- Knowledge of how modern web apps are designed, developed and deployed across different platforms;
- Strong knowledge in preparing and launching social engineering campaigns;
- Ability to program or script in your preferred language;
- Good understanding of network and OS principles;
- Solid knowledge of various technologies, including associated security vulnerabilities and exploits;
- Relevant security qualifications (such as OSCP, CREST CRT, TIGER);
- Strong analytical skills;
- Excellent negotiating skills;
- Superb written and spoken English skills are vital for compiling high-quality reports and liaising with clients.

COMPANY OVERVIEW

ABOUT BULLETPROOF

YOUR BEST DEFENCE AGAINST CYBER THREATS

Bulletproof are one of the fastest-growing cyber security companies in the UK, with a passion for developing innovative solutions to combat modern, dynamic cyber threats. Bulletproof is a vibrant organisation with a proven track record of creating new and exciting security products, and is driven by the desire and talent of our staff.

Good security is in our corporate DNA, and we believe that our information and cyber security services are the best way to stay ahead of the hackers, take control of your infrastructure and protect your business-critical data. Key to our success is our in-house UK Security Operations Centre (SOC) – a state-of-the-art 24/7 command station for all of our cyber security and compliance operations.

Bulletproof is the dedicated cybersecurity arm of the ServerChoice Group, an organisation with over 10 years' experience in providing secure online services. The Group owns and operates multiple data centres, extensive dark fibre networks, runs scalable secure cloud environments and provides intelligent DevOps services. Your attention will be focussed solely on the Bulletproof brand.
