

RECRUITMENT VACANCY

Ruby Developer

Bulletproof, an innovative and expanding Cyber Security specialist, is recruiting for both Mid-level and Senior Ruby Developers to join our expanding team as we focus on the continual development and improvement of our Cyber Security software and solutions, including the development and expansion of our SaaS platform. Working as part of a specialist software team based remotely, the successful candidates will work within a dedicated team to develop and enhance our suite of solutions as well as resolve defects in an agile environment.

Within the role, we can offer you a flexible workplace where we work as a team and share responsibility as a team. Following Kanban methodology, and with code quality at the heart of our endeavours, this role offers fantastic scope to delve into customisable and scalable solutions that are leading the way in the world of Cyber Security. As part of the role, you will help us:

- Develop core products and create prototype applications in-line with the business product strategy and roadmap;
- Work on internal tools to improve operational efficiency;
- Maintain and troubleshoot existing web applications;
- Write and maintain reliable Ruby code;
- Identify and fix bottlenecks and bugs;
- Review and debug other team members' code as part of our embedded peer review process;
- Design robust, scalable and secure features;
- Contribute to all phases of the development lifecycle;
- Test applications for performance, responsiveness and security;
- Follow best practice (test-driven development, continuous integration, refactoring and code standards);
- Drive the continuous adoption and integration of relevant new technologies into design.

Please note, this role can be based anywhere in India, and salaries available are commensurate to experience.

Experience and Skillset required:

- Proven track record of delivering high quality web applications;
- Commercial experience using Ruby on Rails and associated libraries;
- Familiarity of test-driven development and tools (e.g. rspec);
- Good understanding of front-end technologies including HTML5, JavaScript, and CSS3;
- Familiarity with MVC, REST and ORM;
- Understanding of agile software development (e.g. XP/Scrum);
- Good understanding of version control tools (e.g. Git);
- Familiarity with continuous integration tools (e.g. GitlabCI, Jenkins, CircleCI);
- Good knowledge of relational databases (e.g. MariaDB, PostgreSQL);
- Working knowledge of NoSQL databases and object stores (e.g. Redis, S3);
- A firm grasp of object-oriented analysis and design;

- Understanding of 12 Factor App Design;
- Passion for writing great, simple, clean, efficient code;
- Strong communication skills with the ability to present your ideas to a team;
- Flexible, committed and a collaborative approach to working;
- Focus on frequent delivery of working systems;
- Experience with Cloud based infrastructure;
- Good verbal and written communication.

COMPANY OVERVIEW

ABOUT BULLETPROOF

YOUR BEST DEFENCE AGAINST CYBER THREATS

Bulletproof are one of the fastest-growing cyber security companies in the UK, with a passion for developing innovative solutions to combat modern, dynamic cyber threats. Bulletproof is a vibrant organisation with a proven track record of creating new and exciting security products, and is driven by the desire and talent of our staff.

Good security is in our corporate DNA, and we believe that our information and cyber security services are the best way to stay ahead of the hackers, take control of your infrastructure and protect your business-critical data. Key to our success is our in-house UK Security Operations Centre (SOC) – a state-of-the-art 24/7 command station for all of our cyber security and compliance operations.

Bulletproof is the dedicated cybersecurity arm of the ServerChoice Group, an organisation with over 10 years' experience in providing secure online services. The Group owns and operates multiple data centres, extensive dark fibre networks, runs scalable secure cloud environments and provides intelligent DevOps services. Your attention will be focussed solely on the Bulletproof brand.
